PROFESSIONAL SUMMARY

MERN stack developer with hands-on experience in building responsive and scalable web applications. Skilled in JavaScript, React, and backend development, with a strong focus on creating efficient and user-centric solutions. Experienced in integrating AI-driven features into web applications, including machine learning-based systems, with a problem-solving mindset and a passion for building intelligent and impactful digital products.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, JavaScript

Backend: Node.js, Express.js, REST API

Database: MongoDB

Languages: C++, JavaScript, Python

Tools & Platforms: Git, GitHub, Postman, VS Code, Flask, ImageKit

PROJECTS

Campus Placement Management System

- Built a full-stack placement portal to streamline student registration and company coordination.
- Developed RESTful APIs for managing student profiles, job listings, and application workflows.
- Designed an intuitive React-based dashboard for placement officers to track drive schedules and results.
- Implemented role-based authentication for students, companies, and administrators.

MERN-Based AI Smart Firewall

- Developed a full-stack Smart Firewall using the MERN stack for real-time threat monitoring.
- Built RESTful APIs with Node.js & Express for URL analysis and event logging.
- Designed a React dashboard to visualize threat logs and security analytics.
- Integrated a Flask-based ML microservice for URL classification using a Random Forest model.
- Implemented a Chrome Extension for real-time URL interception and threat detection.

CERTIFICATIONS

MERN Stack Development Certification – Udemy

Full Stack Web Development with MERN Stack & AI – Udemy

ACHIEVEMENTS & AWARDS

- HackX Hackathon Winner – Secured 1st place in the HackX inter-college hackathon.
- 3rd Rank – Ideathon, College Level – Recognized for innovative problem-solving and ideation.
- DA-IICT Hackathon Finalist – Selected as a finalist at the prestigious DA-IICT hackathon.
